

Class announcement of a Certified Pool Operator® Class offered in 2026

The need for qualified swimming pool and spa operators has never been greater. Managing a pool requires knowledge of chemistry, physics, biology, and mathematical concepts. The Pool & Hot Tub Alliance works to make pools safer for users and operators, through education and research.

A two-day class is offered by John Mason, a Registered Environmental Health Specialist with the State of Oregon, and Registered Instructor of the Certified Pool Operators program through the PHTA. John draws on over 25 years of operational pool experience to provide insight and analogies to help you better understand this diverse and often complicated career.

March 23 & 24, Bend, OR

April 7 & 8, 2026 Oregon City, OR
